LEZYNE ALLOY FLOOR DRIVE

£59.99

STROKES TO 100PSI: 23

Lezyne really delivers with this classic pump. It has a clear gauge, a superbly reassuring feel – aided by its comfortable varnished wooden handle – while the CNC-machined base and 15mm shaft make it very stable. Add in a long hose and great build quality and you've got a more than competent pump, but what really makes it stand out is Lezyne's excellent Flip-Thread chuck. This does away with a locking lever, the reversible head screwing directly – and very securely – onto Presta valves for leak-free pumping every time. It's slightly slower to attach, but worth it, and makes bent Presta valves a thing of the past. Comes in four colours too.
