

LEZYNE PORT-A-SHOPS

★★★★★ £80

This article's only 'luxury' purchase is here for a reason. Rather than a 'traditional' bulky toolkit, if you're touring or racing, this compact case is an excellent option. One of the *Cycling Plus* team even uses these in his workshop. The Small version comes with an Allen key block, Torx block, multi-block, chain drive and tyre levers. You may be able to find it for less than its RRP too.
